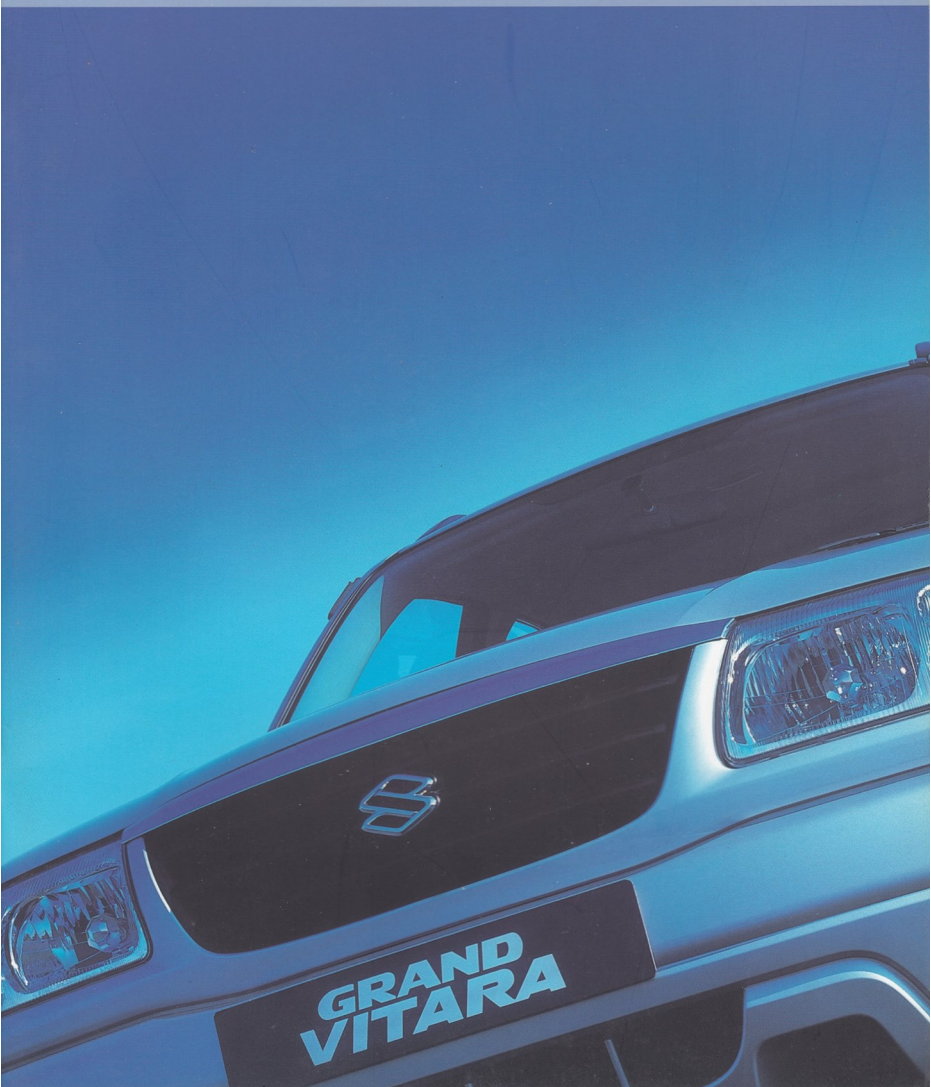
SUZUKI

Grand Vitara

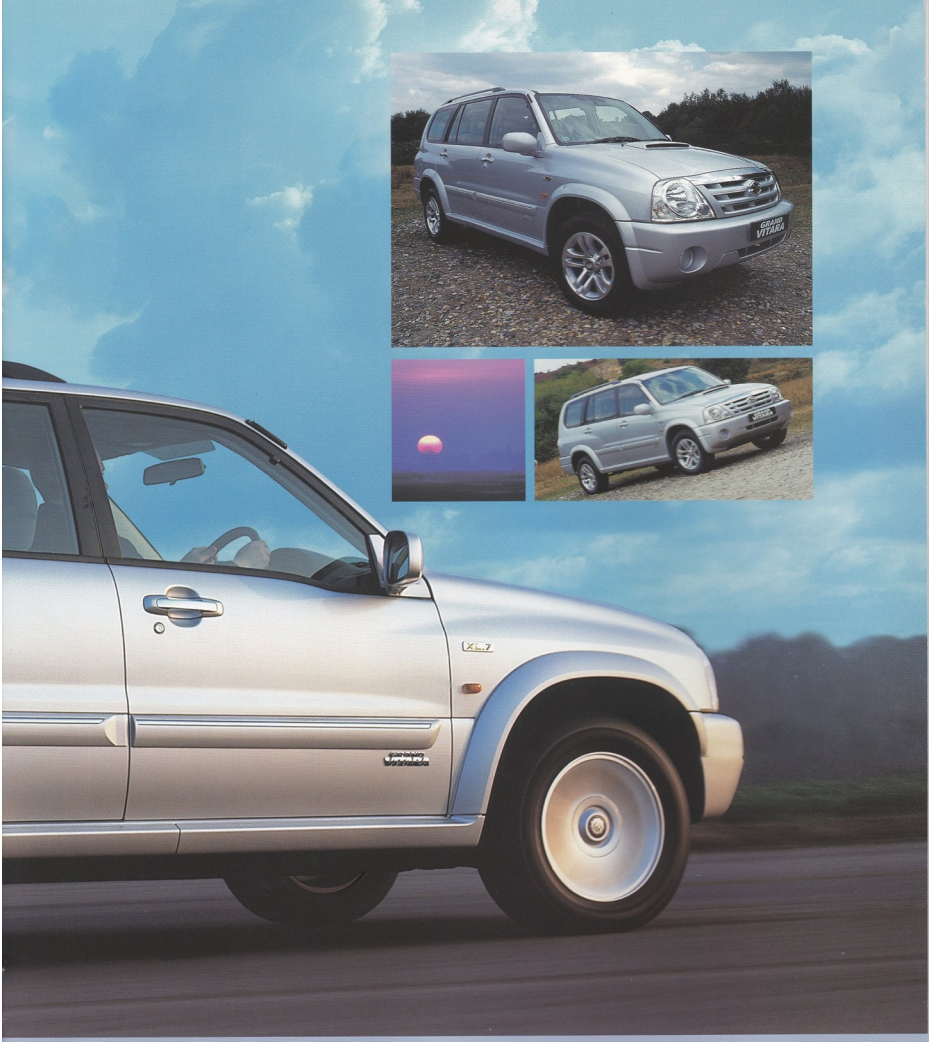


Looking for adventure? Start here.

Three different characters, with one important thing in common. Every Grand Vitara is a real 4x4. It isn't bothered by a minor detail like a total absence of tarmac. In fact, that's when it really gets going. On or off-road, travelling light or loaded with kids and the kitchen sink, there's a Grand Vitara that'll do the job for you. All you have to do is pick one. Ready to go?

GRAND VITARA range

So, do you really need a 4x4 for the school run? When it takes seven people, you do. Our biggest, grandest Grand Vitara has seven seats, a choice of a powerful 2.7-litre V6 petrol or 2.0-litre turbo diesel engine, plus a superb standard specification. And if you're carrying more luggage than people, the XL-7 five-seater has one of the biggest boot spaces in its class. Perfect for the streets from Monday to Friday. And just about anywhere else over the weekend.



GRAND VITARA XL-7

A green lane or Park Lane - makes no odds to the Grand Vitara 5-door. World beating 4x4 technology and a choice of 2.0-litre petrol and turbo diesel engines means it's totally at home in the middle of nowhere. And with sharp, contemporary styling and a long, long list of interior refinements, it's equally comfortable around town. Just like you, in fact.

VITARA

SUZUKI

The kids have left home. Or maybe they haven't put in an appearance just yet. Either way, you're still travelling light. So make the most of it. The 3-door Estate's compact dimensions and choice of lively 1.6-litre petrol or 2.0-litre turbo diesel engine give it the edge around town, or heading who-knows-where on your latest big escape. Each weekend lasts 48 precious hours. But why not enjoy the 120 in between, too?

GRAND VITARA 3 door ESTATE

XL-7 interior dash.

We all know what a picture's worth. So instead of giving you 1,000 words about the top-quality materials, attention to detail and common-sense ideas you'll find in every Grand Vitara interior, we'll let you find out for yourself. Are you sitting comfortably?

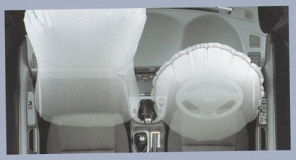
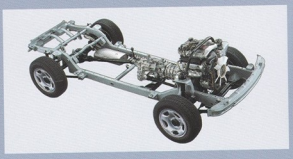
GRAND VITARA

High mounted rear stop light

Ladder frame chassis





When we build a 4x4, we don't mess about. The Grand Vitara gets its awesome off-road ability from our unique 'Drive Select' 4-wheel drive system, long-travel suspension and some other heavy-duty engineering. But fording rivers or bouncing up mountainsides can be a picnic compared to some of the hazards on your average high street. Which is why every Grand Vitara also has driver and front passenger airbags, side impact protection beams and ABS with EBD as standard.

GRAND VITARA safety AND TECHNOLOGY

What's the difference between 'a' Grand Vitara and 'your' Grand Vitara? Here's the answer. Or answers. With hundreds of Suzuki Genuine Accessories to choose from, you can add tiny, subtle details or go totally over the top. Either way, you'll end up with a true original. And that really matters. After all, is anyone else exactly like you?

A wide selection of Suzuki Genuine Accessories are available to make your Grand Vitara unique. All are designed and manufactured to the same exacting standards as the Grand Vitara itself. A full fitting service is available from your Suzuki dealer. Please ask your dealer for a copy of the Grand Vitara Accessories brochure to view the full range of available accessories, a small selection of which are illustrated here.
